SKILLS SUMMARY

Languages:	Python, C, C++, Java, JavaScript
Frameworks & Libraries:	React.js, Vite, Node.js, Express.js
Databases:	MongoDB, MySQL, PostgreSQL
Developer Tools:	Git, GitHub, Postman, Socket.IO, Razorpay, Google OAuth
Core Subjects:	Data Structures & Algorithms, Object-Oriented Programming
Soft Skills:	Active Listening, Leadership, Quick Learner

PROJECTS

CampusEats – Real-Time Campus Food Delivery Platform | GitHub | Live — Apr 2026 – Aug 2026

- Architected a full-stack MERN platform with **Socket.IO** real-time order tracking, **Redux Toolkit** state management, and **Google OAuth** authentication, enabling role-based workflows across **4 user roles** — students, vendors, delivery partners, and administrators.
- Integrated **Razorpay** payments and resolved critical production bugs (infinite render loops, stale closures, host identity normalization), improving checkout stability across concurrent sessions.
- Debugged and resolved Vercel build pipeline failures (JSX mismatches, broken import paths), shipping a stable **MongoDB**-backed deployment.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, Redux Toolkit, Razorpay, Google OAuth

Sri Adithya Furniture – Business Website for a Local Furniture Retailer | Live — Sep 2025 – Oct 2025

- Designed and built a responsive business website for a real client, showcasing **20+ products and services** across an optimized, mobile-friendly layout.
- Integrated **WhatsApp click-to-chat**, giving customers a direct line from product browsing to inquiry with no extra steps.
- Optimized images and page assets for faster load times, deploying to a custom domain.

Tech Stack: React.js

ProcessOptima – Real-Time System Process Monitoring Dashboard | GitHub — Nov 2025 – Dec 2025

- Developed a real-time, AI-powered monitoring dashboard using a **Node.js** backend to collect live OS metrics (CPU, memory, running processes) via a REST API, displaying **200+ concurrent processes** with trend charts.
- Designed a heuristic **anomaly detection** engine that flags per-process and system-wide issues, generating optimization recommendations and severity-based (Low/Medium/High) real-time alerts.
- Delivered one-click exportable **JSON diagnostic reports** capturing timestamped snapshots, detected anomalies, recommendations, and historical trends.

Tech Stack: HTML, CSS, JavaScript, Node.js, Chart.js

TRAINING

Web Development Training – Responsive Web Development | Certificate — Sep 2025 – Oct 2025

- Developed responsive and user-friendly web applications using HTML, CSS, and JavaScript, ensuring consistent UI, functionality, and usability across desktop, tablet, and mobile devices.
- Engineered and enhanced 5+ frontend components while diagnosing and resolving 10+ layout, responsiveness, styling, and cross-browser compatibility issues through systematic debugging and testing.
- Optimized frontend code and website assets to improve page performance and load efficiency while maintaining clean, reusable, and maintainable code.

Tech Stack: HTML, CSS, JavaScript

CERTIFICATIONS / CERTIFICATES

Programming Using C++ | Infosys Springboard — Sep 2025
Python and Django Framework for Beginners | Udemy — Oct 2024
Effective Time Management | CodingTantra — Mar 2024

EXTRACURRICULAR ACTIVITIES

Founder & CEO, WAIVE — led a university venture integrating web and AI club. — Feb 2026

EDUCATION

Lovely Professional University — Jalandhar, Punjab
Bachelor of Technology (B. Tech) — Computer Science and Engineering — CGPA: 7.68 — Aug 2024 – Present

Sri Sarada Junior College — Vijayawada, Andhra Pradesh
Intermediate — Percentage: 96.6 — Jun 2022 – Mar 2024

Aravinda High School — Vijayawada, Andhra Pradesh
Matriculation — Percentage: 92.2 — Jun 2020 – Apr 2021
