INDLA MOHANA VENKATA MANI DEEP

indlachinnu123@gmail.com | 7661822103 | linkedin.com/in/manideep-developer | manideep1822.github.io/Portfolio/ | github.com/ManiDeep1822 | Jalandhar, Punjab, India

SUMMARY

Computer Science undergraduate with hands-on software engineering experience in full-stack development using the MERN stack. Built and shipped real-world applications involving REST APIs, databases, authentication, real-time systems, and payment integration, including a live client project. Strong foundation in data structures, algorithms, and object-oriented programming. Seeking a Software Engineer internship to design scalable applications, solve complex problems, and contribute to an engineering team.

EXPERIENCE

Founder & CEO — WAIVE (Web AI Integrated Virtual Engineering)

Lovely Professional University | February 2025 - January 2026

- Founded WAIVE to explore web development and AI-driven solutions, defining the organization's vision, technical roadmap, and project objectives.
- Researched and evaluated 10+ modern web and AI technologies to identify suitable tools, frameworks, and implementation approaches.
- Secured initial seed funding from a university incubation centre to support project development and operational tooling costs.

Web Development Intern — SkillCraft Technologies

September 2025 - October 2025

- Developed responsive web applications using HTML, CSS, and JavaScript, delivering consistent UI across desktop and mobile devices.
- Built and enhanced 5+ frontend components, and diagnosed/resolved 10+ layout, responsiveness, and cross-browser issues.
- Optimized website assets and frontend code, contributing to improved page performance and load efficiency.

PROJECTS

CampusEats — Campus Food Delivery Platform

React.js, Node.js, Express.js, MongoDB, Socket.IO | campus-eats-drab.vercel.app | January 2026 - Present

- Built a full-stack platform with 4 distinct user roles (students, vendors, delivery partners, administrators), each with a dedicated dashboard and workflow.
- Engineered real-time order tracking with Socket.IO, synchronizing order status instantly across customers, vendors, and delivery partners.
- Implemented secure authentication (including Google OAuth) and integrated the Razorpay payment gateway for end-to-end digital payment processing.

Sri Adithya Furniture — Business Website (Real Client Project)

Frontend Web Technologies | sriadithyafurniture.shop | September 2025 - October 2025

- Designed and developed a responsive business website for a real client, featuring 20+ furniture products and service offerings.
- Implemented a WhatsApp click-to-chat feature and applied image/asset optimization, reducing page and image load times by approximately 80% and overall page size by more than 50%.
- Deployed the website on a custom domain, making it accessible to 100% of online visitors and supporting real-world business operations.

ProcessOptima — System Process Analyzer

November 2025 - December 2025

- Developed a real-time system monitoring dashboard that tracked core system metrics (CPU, memory) and hundreds of active processes with sub-second refresh intervals.
- Displayed and managed 200+ concurrent system processes in a structured tabular format, improving process visibility and analysis.
- Implemented automated alerts and one-click exportable JSON reports containing complete performance snapshots for diagnostics and auditing.

Personal Portfolio Website

HTML, CSS, JavaScript | manideep1822.github.io/Portfolio/ | October 2024 - November 2024

- Developed a comprehensive online portfolio showcasing 5+ projects and web development skills.
- Built a fully responsive design adaptable to desktop, tablet, and mobile devices.
- Optimized website load time by 20% through performance improvements.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science and Engineering

Lovely Professional University | Jalandhar, Punjab | 2024 - 2028

12th - Science, 96%, Sri Sarada Junior College, Vijayawada, Andhra Pradesh (2022-2024) | 10th - Science, 92%, Aravinda High School, Vijayawada, Andhra Pradesh (2021-2022)

CERTIFICATIONS

Programming Using C++ — Infosys Springboard (2025) | Python and Django Framework for Beginners — Udemy (Oct 2024) | Effective Time Management — CodingTantra (Oct 2024)

SKILLS

Languages: Python, C, C++, Java, JavaScript, TypeScript | **Frontend:** HTML5, CSS3, React.js, Vite, Redux Toolkit

Backend: Node.js, Express.js | **Databases:** MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, Socket.IO, Razorpay, Google OAuth
